DETAILED ACTION

Election/Restrictions

1. Newly submitted claims 67-80 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:

Claims 74-80 are drawn to a system, not an atmosphere, with recitations of a "chamber" and a "mixing system," for example, with no limitation requiring high density plasma, contrary to the claimed "atmosphere" of the original claims.

Claims 67-73 are drawn to an "atmosphere," yet could be an atmosphere in a form other than "high density plasma" as required for the atmosphere of the originally presented claims.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 67-80 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancel claims 67-80.

Allowable Subject Matter

3. Claims 37-39 and 81-85 are allowed.
4. The following is an examiner's statement of reasons for allowance:

The prior art does disclose applicant's claimed "atmosphere," particularly characterized by deposition gas, reactant gas and a *chemically inert reaction promoter* mixed at a particular flow rate relative to the reactant gas to form a high density plasma at a particular pressure, the claimed atmosphere being applicable to a high density plasma chemical vapor deposition process.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Evan Pert whose telephone number is 571-272-1969. The examiner can normally be reached on M-F (7:30AM-3:30 PM).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nathan Flynn can be reached on 571-272-1915. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
